Congratulations to all the competitors! If it's a great pleasure to be on the podium, it's not the final aim! Simply competing is already important, learning you a lot of things. If you succeed to be in the classification list, it is important. And if you try again, year after year, you can evaluate your progress. And it is really something!

Many thanks to all those whose work, often tedious, made possible these championships and its awards ceremony!

Note Taking & Summary

The Real Time competition has been managed from US by Linda Drake and on spot by Russell Page.

✓ **Danny Devriendt**

not only as active member of the congress organization committee but managing results lists and diplomas as well**,** and a lot of other works that it would be too long to enumerate.

✓ **Colette Fettweis** & **Anne Rabot**

who ensure the correct distribution of medals and certificates, assisted by **Juliette** & **Megann**.

✓ **All national juries** working at home, months before the congress, preparing the translations, dictating the texts of the speech capturing contests, the controllers on spot, the helpers during the contests, the correctors/evaluators, that I will not name because I fear to forget some of them.

✓ The members of the **national Intersteno groups**, motivating, training, or sponsoring competitors.

These people had the pleasure of presenting medals and diplomas to the winners.
