

THIS IS THE OFFICIAL CAGLIARI PRACTICE DICTATION TEXT. READY.
BEGIN.

The global digital transformation is taking place through the swift increase in access to and use of open and big data. The economic value of data is becoming more and more evident, and data-driven innovations are also becoming a key factor in the rapid spread of a wide range of new technologies and business model innovations.

New developments in high-performance computers, cloud computing, and mobile web services plus access and use of big data are changing businesses, public services and society in many ways.
